

International School
EDIT2013
Excellence in Detectors and Instrumentation Technologies

12 - 22 March, 2013
KEK, Tsukuba, Japan

<http://edit2013.kek.jp>

EDIT is a school of Excellence devoted to young researchers, in their graduate studies or in their first two years as a post doc, seeking to get hands-on experiences on the major aspects of detectors and instrumentation technologies.

Laboratory program:
FPGA and DAQ system
Silicon Tracking Detector
Neutron Detector
Superconducting Detector
Photon Detector
Liquid Bubble Gas Detector
Gas Tracking Detector
Practice with Test Beam

International Advisory Committee
A. Carr (CERN)
D. D'Amico (INFN)
S. Durr (DESY)
R. K. Smit (J-PARC) chair
J. Kroll (DESY)
Y. Kubota (J-PARC)
V. Pozdnyakov (INFN)

KEK J-PARC

Uluslararası EDIT Detektör Teknolojileri Yaz Okulu, 12 - 22 Mart 2013 tarihlerinde Japonya'nın Tsukuba şehrinde KEK desteğiyle düzenlenecektir. Detektör sistemleri konusunda laboratuvar oturumlarının da yapılacağı okul özellikle konuyla ilgilenen master ve doktora öğrencileri için faydalı olabilir.

Ayrıntılı bilgiye okulun resmi sitesinden ulaşabilirsiniz:
